

# NOTICE TO ALL MCSC CLUB MEMBERS

## THIS TARGET FRAME MUST BE USED BY ALL MEMBERS

### TARGET FRAME SPECIFICATIONS

This drawing is the target frame specifications which must be used by all members and their guests who will be shooting at the club's rifle and pistol ranges.

The frame is constructed out of 1-5/8 wood stock (standard 2x2), six (6) feet high and twenty four (24) inches wide (outside measurements). Remember all projectiles must impact into the range impact area. You may wish to construct a folding leg version or you can purchase a frame from the committee at a reasonable price.

**PLEASE NOTE:** These target frames and used targets should be removed and all refuse taken with you when you leave the range.

Please help us keep these ranges clean and safe.
